## ALGER HAS HIS TURN

He Issues a Statement on the Conduct of the War.

## REPLIES TO PERT QUERIES.

Why Changes Were Made in the Original Plan of Campaign—Operations Around Santiago and Other Affairs Aired.

Washington, Oct. 12.—The war investigation commission devoted its forenoon session to the examination of Secretary Alger's statement and the papers furnished by him in reply to the commission's inquiries.

The accompanying papers include the reports from the various bureaus of the war department, and also various letters and telegrams bearing upon the conduct of the war.

Secretary Alger, in his report, replies to the various questions propounded by the commission, but he gives especial prominence to the plan of campaign, and to the changes that were made in the original plans.

He states that Tampa was chosen as the base of operations because of its proximity to Havana, at which point it was originally intended the first attack should be made.

The determination to make a change was due to the developments on the southern coast of Cuba and to Admiral Cervera's course in locating his fleet on the bay at Santiago.

When it was quite certain that he was securely entrapped, Admiral Sampson wired the fact to the secretary of the navy, asking that troops be sent immediately.

He said that he had silenced the batteries which were accessible from the sea and that 10,000 men could capture the town within 48 hours.

The report shows that General Miles advised in the beginning that the first move should be made against Porto Rico, and that after that island should be subjugated that the American forces should be landed on the north coast of Cuba at some point from which they could move conveniently either to the east or the west.

## MADRID BUDGET.

The Peace Negotiations Are Not Progressing Satisfactorily.

Madrid, Oct. 12.—The semi-official Correspondencia, touching upon the negotiations now in progress at Paris, says:

"Well informed circles assert that the peace negotiations are not progressing satisfactorily. Senor Montero Rios has written asking for new instructions to enable him to come to an agreement with the American commissioners. His letters have been read at a meeting of the cabinet and the ministers have agreed upon the terms of new instructions which will be sent.

A meeting has expressed the opinion that probably the Philippine question will not be discussed, as the Americans are also waiting for instructions.

The minister of war, General Correa, has received a dispatch from General Rios, the Spanish commander in the Philippines, announcing another victory in the Visayas islands over the insurgents from the island of Luzon, who are said to have lost 122 men killed and many wounded, besides losing all their guns, several cannon and a quantity of ammunition.

General Rios adds that he considers the rebellion in the Visayas islands to be ended, and he asserts that the natives do not respond to the appeals of the insurgents.

## Coast Signal Service.

Washington, Oct. 12.—A complete history of the operations of the United States coast signal service is presented in the report of Captain John R. Bartlett, who was the superintendent of that service. This institution was born of the emergency created by the war and Captain Bartlett shows how, within one week after the orders had gone out by telegraph, the entire coast was under observation from a chain of stations extending from Maine to Texas. There were eight districts, in which were distributed 36 signal stations officered and manned by the state naval militia, a force of 18 officers and 210 men. The largest force was necessarily on duty in Florida.

## Soldiers Brought In.

Lexington, Ky., Oct. 12.—The Twelfth New Yorks failed to carry out their threat to take Alvie Kitchen from the county jail and lynch him because he killed their comrade, Private Edward Nygren. The One Hundred and Sixtieth Indiana was sent into town at a late hour and at 2 a. m. had got together 400 soldiers, who were in town on passes and without, and marched them back to camp.

## Spanish Garrison Departs.

Manzanillo, Cuba, Oct. 12.—The Spaniards who have been garrisoning

Manzanillo left here on board the steamer Porto Rico, bound for Cienfuegos. Colonel Ray, the American commander, paid a final visit to the Spanish commander, Colonel Parron, and wished the Spaniard bon voyage.

## Do Not Agree.

London, Oct. 12.—A dispatch from Paris says the United States and Spanish peace commissioners are at entire variance regarding the question of the disposition of the Philippine islands, and that they have referred the matter to their respective governments.

## General Miles Ignored.

Washington, Oct. 12.—There has been, since the return of General Miles from Porto Rico, no exchange of courtesies between him and Secretary Alger. Public opinion having been allowed to die down somewhat, Secretary Alger is said to be active again in his snubs to General Miles. In this he has the loyal assistance of Adjutant General Corbin. The order issued two days ago reorganizing the army corps General Miles had not seen until handed to him. When reinforcements were ordered to General Bacon in the Bear Island region General Miles was absolutely ignored.

## Will Conform to Holcomb's Request.

Washington, Oct. 12.—The war department will conform to the modified request of Governor Holcomb in relation to the Nebraska regiments. Governor Holcomb suggested that the number in each company of the First and Third regiments be reduced to the minimum of 81 soldiers, thus allowing a number of discharges in both regiments. This will keep both regiments in the service. The First Nebraska at Manila, and the Third, Colonel Bryan's, at Jacksonville.

## Uncle Sam Will Take Possession.

Washington, Oct. 12.—When the attention of officials was called to the statement made in Madrid that a strong force of Spanish troops would be kept in Cuba until the treaty of peace had been signed, it was simply stated that there had been and would be no change in the orders to the United States troops, or in the instruction given to the American military commission in Havana to take possession of the island on Dec. 1.

## Another Fourth Ohio Boy Dead.

Washington, Oct. 12.—The following dispatch has been received from General Brooke at Ponce, Porto Rico: Deaths: Private Albert H. McCoy, company C, Third Illinois, malarial fever; Private John W. Walker, company A, Fourth Ohio, typhoid fever; Private Hosea Vincent, company F, Sixteenth Pennsylvania, typhoid fever.

## Torry's Rough Riders to Go.

Washington, Oct. 12.—Secretary Alger decided to muster out the Second United States volunteer cavalry, otherwise known as the Torrey's Rough Riders. The men will be mustered out in Jacksonville and most of them will return at once to their homes in the Rocky mountain country.

## Insurgents Lay Down.

Madrid, Oct. 12.—The government has received an official dispatch from General Rios, the Spanish commander in the Visayas islands, saying that 4,000 insurgents, including 38 chiefs, have unconditionally submitted to Spanish authority.

## TO FIGHT TO THE LAST.

Rebellious Reds Preparing For General Bacon's Attack.

## DEFIANT NOTES TO WHITES.

Runners Report the Redskins Strongly Intrenched, and the Situation Is Regarded as Desperate. Villages Moving.

Cass Lake, Minn., Oct. 12.—Indian runners from the south have passed here going north, bringing information of a more serious nature than anything heard heretofore.

The hostiles at Bear Island have heard that General Bacon intends to attack them and are busily preparing to resist. The Indians are well posted on everything that goes on at Walker and at the agency. They are strongly entrenched and have sent out insulting messages to the whites.

Their runners are busily engaged in urging reinforcements from branch tribes. There have passed down the water ways to Leech Lake in the past three days as many Indians as there have soldiers come in over the railroad.

A village has passed up Cass Lake and others are now encamped eight miles northwest from here. Women and children have been going steadily northward. Twenty canoes of bucks, four in each, have gone up the Mississippi river into Leech Lake. It is estimated by the woodsman here that at least 500 reds, who will join the hostiles on the slightest encouragement, are now within striking distance of Leech Lake dam.

Chief Seely, who has come in from Brainard, brings alarming reports. He said: "Bacon will make another attack in the next day or two. He is determined to get the Indians or their bodies. If he does neither, the Reds will make a break north for the Big Fork country. He cannot follow them and they will have time to do awful damage to the settlers, straggling villages and railroad property as they flee. I consider the situation extremely critical both here and along the road, especially at points where land and water routes cross. Some of my estimators are starting back to work, but only where the troops can protect them."

## Hostiles Willing to Council.

Washington, Oct. 12.—The interior department received the following from Inspector Tinker at Walker, Minn: "Runners from the hostile camp came to the agency and report that the hostiles are willing to council at Sugar Point. A delegation under direction of Father Aloysius has started for that point."

## Zola's Friends to the Rescue.

Paris, Oct. 12.—The house and furniture of M. Emile Zola was offered for sale to satisfy a judgment of 30,000 francs obtained against him by three handwriting experts, who recently won a suit for libel against the novelist growing out of the Dreyfus case. The friends of Zola ran up the bidding on the first article, a Louis X walnut table, which was originally bought for 120 francs, to 32,000 francs, thus producing the amount required and stopping the sale.

## Condition of Catholic University.

Washington, Oct. 12.—The archbishops of the Roman Catholic church are in annual meeting here. The condition of the Catholic university, according to the report of the university board, is most satisfactory. The treasurer's report showed receipts for the year to be \$133,900, expenses \$130,950. Rev. Edmund T. Shanahan, D. D., of Boston was appointed professor of dogmatic theology in place of Professor Schroeder, who has retired.

## About Fashoda.

Paris, Oct. 12.—The Gaulois, referring to the publication of the Fashoda Blu Book by the British foreign office, expresses confidence in a satisfactory settlement of the matter. The Journal de Paris affirms that the documents made public in the blue book do not establish the right of Great Britain to the region which France occupies.

## Colonel Bryan's Appeal.

Chicago, Oct. 12.—Mr. W. H. Harvey is in receipt of a letter from Colonel William J. Bryan. Inclosed was a pledge for monthly contributions to the cause of bimetalism. The writer urges that an appeal be made to the "plain people" for funds to carry on the contest for the "financial independence of the United States."

## Murder of Joseph Gould.

Minneapolis, Oct. 12.—Joseph Gould, formerly an Indian trader and now a farmer, was murdered Saturday night near the Leech lake dam. It is believed that the crime was the deed of hostile Indians, whose ill will Gould had incurred in his operations. He claimed to be a cousin of Jay Gould.

## LOOTED A BANK.

Barling Robbers Do a Neat Bit of Work in a Michigan Town.

Grand Rapids, Mich., Oct. 12.—The private bank of Jacob Den Herder, at Zeeland, was looted by robbers and the vaults scraped clean of all currency except \$1,000 in silver, which the thieves rejected as too inconvenient to carry.

Zeeland employs no night watchman and as the residents retire early, the burglars had an easy task. Nothing but paper currency and gold was taken, all notes and securities being left. Nitroglycerine was used in wrecking the vault and everything shows the neat work of professionals.

Mr. Den Herder refuses to give out the amount stolen, but it is believed to be between \$3,000 and \$5,000. He states that he will suffer no loss, as he is insured in a company which protects banks against robbery. The robbers have several hours' start of the sheriff's force. The only clue is that a dark complexioned, black mustached man of medium height and wearing a slouched hat, appeared in a Zeeland store and bought several pairs of hollow shoe strings, which were used as a time fuse in blowing open the vault.

## Highest Peak in America.

Seattle, Wash., Oct. 12.—The G. H. Eldredge geological survey, which has just returned from the Cooks Inlet country, is declared to have discovered the highest mountain in North America. The peak, which towers far above Mount St. Elias, is situated in Alaska to the right of the Sushitna river. The government topographer took triangulations of the elevations, ascertaining by scientific calculations the exact height of the peak, which he declared to be more than 20,000 feet. The mountain was named Bullsbae, a word spoken in exclamation by the Indian guide of the party upon first beholding the wonderful peak.

## Transfer of Sick Men.

Cincinnati, Oct. 12.—A hospital train from Jacksonville, Fla., with 149 patients, mostly suffering from typhoid fever, reached Newport in a driving rain. The train was in charge of Dr. Richardson and Hospital Steward Seneta. They report no deaths en route and that the men endured the journey remarkably well. When the rain ceased somewhat the cars of the Fort Thomas Electric railway were brought alongside the train and the work of transferring the patients was begun. The seats of the street cars were removed and the men placed on the floor on mattresses.

## The Typographical Union.

Syracuse, Oct. 12.—The session of the International Typographical union was devoted to considering a portion of the report of the committee on laws. There was a prolonged discussion on the proposed change in the method of organization. It was finally disposed of by the appointment of a committee of three to ascertain the competitive trade centers of the country with a view of laying out new districts. It was unanimously voted not to admit in the future members of the allied trades in typographical unions.

## OVER TO GRAND JURY

Miss George In All Probability Will Be Bound.

## MORE DAMAGING TESTIMONY

It Is Pretty Clearly Established She Was In Vicinity of the Saxton Tragedy When It Occurred—What Policemen Found.

Canton, O., Oct. 12.—There is but little change in the case against Mrs. Annie E. George, accused of murdering George D. Saxton.

Her preliminary hearing was had in justices court and a number of witnesses against her were examined. It remains to be seen whether she will be held to answer to the higher courts. She probably will, for the evidence thus far pretty clearly establishes that she went to the vicinity of the tragedy about the time it occurred and that she had made threats against the life of Saxton.

The hearing opened with eight witnesses present for the state and three for the defense.

Street Car Motorman S. E. Rittehouse testified that a woman who was pointed out by the conductor as Mrs. George rode with him Friday evening and left the car at Hazlett avenue, which is the first street east of the tragedy.

Henry J. Bederman, who lives near the Althouse home testified that while standing near the corner grocery he heard two shots, he saw people at the Althouse steps and one of them, a woman, walked away, then there was a call for help and the woman walked back, fired two more shots and then ran away, going through a vacant lot to the rear of the street. After the last shot the man fell and later the witness found him to be George Saxton. He could not tell who the woman was.

Police Officers Fred McCloud and Henry Piero testified as to arresting Mrs. George. They said they found burrs and Spanish needles on her clothes and that her hand was discolored as though from smoke and from the odor they concluded that it was gunpowder smoke.

## EPIDEMIC INCREASING.

Yellow Fever Situation in the South Growing Serious.

Washington, Oct. 12.—The reports to the marine hospital service show the yellow fever in the south is steadily increasing.

The official state the increase in the fever list is likely to be continued until cold weather sets in, and this is thought still to be at least three weeks off in the region most affected.

The dispatches received here report the total number of cases in Mississippi up to date to be 470, with 36 deaths, since the epidemic broke out.

Yellow fever was reported to have occurred at Lake Charles, La., in a dispatch from Dr. Edmond Shushan of New Orleans. At Franklin, La., there are 28 new cases and no deaths.

## In Search of Site For a Camp.

Havana, Oct. 12.—Colonel Hecker and Captains Clay, Crawford and Clark visited the grounds surrounding neighborhood of Guanabacoa for the purpose of selecting a site for a camp to be used by the American troops. So far they have made no selection, having found most of the ground marshy and liable to generate malaria. The commissioners also find that the railroad facilities for the transportation of troops are most meager and have recommended that work begin immediately on an extension of the road to the eastern end of the island.

## Strikers Forced to Retire.

Washington, Ind., Oct. 12.—About 250 coal miners from Montgomery and Cannelburg, 50 of them accompanied by their wives, came to this city and joined with local strikers. They marched to Cabel & Company's mine, but the 50 non-union men there had Winchester and pistols drawn and the strikers retired. The women, however, threw rocks and clubs at the miners, striking several but not injuring them. One miner, John Keller, was captured by four of the women and given a severe beating.

### DEMOCRATIC TICKET

**MORDECAI WILLIAMS,**

For Kentucky—Fair; variable winds.

Vote for free pikes on November 8th, and also vote the bonds to pay for them.

Let the Democrats of Mason County rally to the last man to the support of Hon. Mordecai Williams on November 8th.

"Is it not just a little bit awkward to have the Wool Exchange closing on account of depression in the wool business during a McKinley administration and under a Dingley tariff?" is the very pertinent inquiry of the New York World.

The Germans of New York are said to almost unanimously in their support of Judge Van Wyck for Governor. The Staats Zeitung, the leading German paper of the State, is supporting the Democratic ticket "because it regards Theodore Roosevelt as a narrow-minded, egoistic and unreliable man, whose vanity is likely to lead him in any direction without regard to consequences, be they good or bad." Judge Van Wyck must be confident of winning, as he has resigned his judicial office, with practically a life tenure and a salary of \$14,000 a year, to accept the gubernatorial nomination—a two-year \$10,000 office.

### TURN ON THE WATER.

The BULLETIN voices the general sentiment when it very kindly asks the city authorities to have the water turned on in the fountain at the Market street esplanade, at least for to-morrow. Judging from reports, one of the largest crowds ever in Maysville will be here to see Col. William F. Cody's big show, and the city should certainly look its best. In addition to this, the fountain would furnish a place where many could slack their thirst.

The BULLETIN understands from a reliable source that the cost of having the water turned on constantly at the fountain would not exceed much more than \$2 a month, if it reached that figure, and the tax-payers of Maysville will cheerfully contribute this insignificant sum.

We hope the authorities will promptly settle the matter and settle it as the people want it settled.

Turn on the water.

## A MAYSVILLIAN.

Captain Nat P. Phister, Who Won Honors in the Late War, Expected on a Brief Visit to His Old Home.

[Commercial Tribune, October 10th.]

Captain Nat P. Phister, of the First Infantry, U. S. A., who, with Captain O'Connell, commanded the now famous Gussie expedition, and who further so distinguished himself at the battle of Santiago, arrived in the city Sunday. The Captain came from Anniston, Ala., where the First is now encamped, to meet his wife and two charming daughters—beautiful girls, both of them—who, had but recently journeyed all the way from the Presidio, at San Francisco, Cal., the old garrison of the Captain's regiment.

As it is expected that the First will be returned to Cuba within a very short time, it is the intention of the Captain to locate his family here in Cincinnati, not only that they may be nearer him than at their former home in California, but further that his daughters may enjoy the advantages of one of the famous local schools upon Walnut Hills.

Capt. Phister, though now upon sick leave, is the only officer of the famous First who went with that regiment to Cuba and returned with it without the experience of either a disabling wound or debilitating sickness. Through the many shore fights of the Gussie, the landing at Baiquiri, the march to Santiago, the assault and capture of El Caney, the second day's defense of San Juan and the many other dangerous and trying experiences of the never-to-be-forgotten Santiago campaign, he fought his way without a scratch, and now, the very picture of robust manhood, is about to return to his command preparatory to the second start for Cuba.

In the meantime the Captain, who, with his family, is now stopping at the home of his near relatives, the Ferrys, of Walnut Hills, will make a brief visit to his invalid mother at Maysville, Ky., where he was born, and from which place he entered West Point Military Academy.

### THE WILD WEST.

To-morrow Will be Buffalo Bill's Day in Maysville With His Remarkable Show.

To-morrow will be Buffalo Bill day in Maysville. Whatever use has been made of the superlative on previous occasions as applied to exhibitions, it finds a truthful use in the application to Buffalo Bill's entertainment. The management has

ransacked creation to secure novelties, and has developed the show from a picture of the Wild West to one that embraces every field of adventure from the most distant corners of the globe.

One of the main attractions now is the Cuban color guard, composed of genuine wounded veterans and soldiers, fresh from the field of Cuba. They number men with one leg and men with one arm, the others lost in fighting for "Cuba libre."

They made their first appearance in their native costumes and equipment at Madison Square Garden, with the rough riders of the world, bearing their red, white and blue emblem alongside the starry banner among the flags of nations. These men, with the various other horsemen from all parts of the earth, complete the up-to-date interest in Col. Cody's story of the rough riders of the world.

### BIG YIELD OF CORN.

Average in Kentucky This Year is Placed at 32 1-2 Bushels To the Acre. Monthly Crop Report.

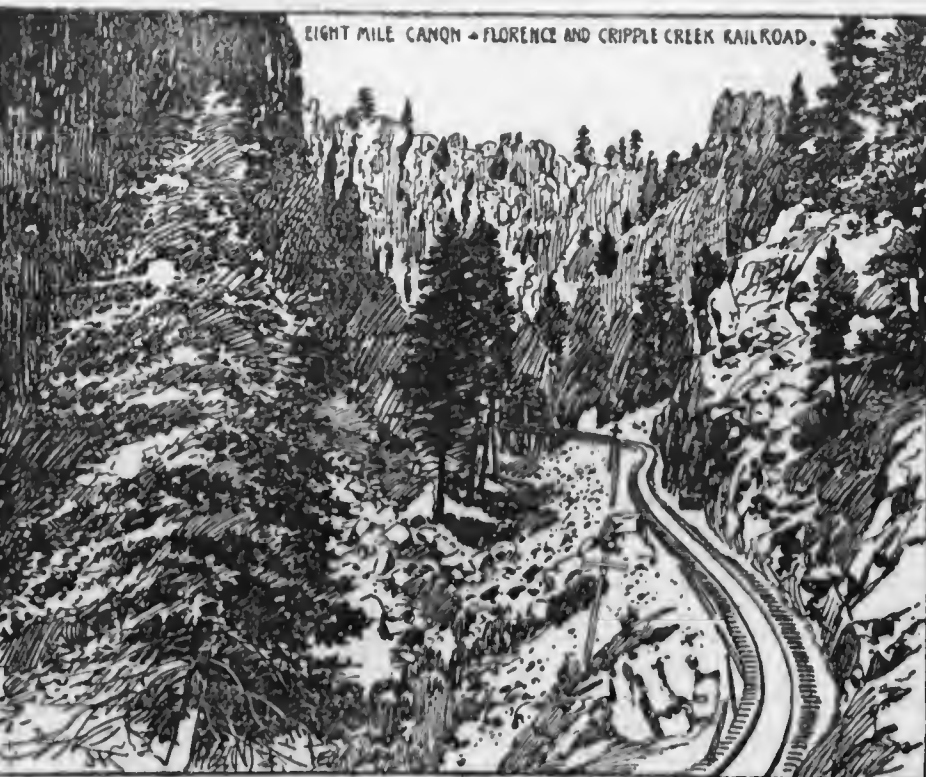

The monthly crop report of the State Commissioner of Agriculture made up of reports from 103 counties, estimates the average yield of corn at 32 1/2 bushels per acre for the State. The average yield for 1897 was estimated at twenty-three bushels per acre. By sections the yield averages thirty-one bushels for the Western, thirty-five for the North Central and twenty-seven bushels for the Southeastern section.

Widely varying views are expressed regarding the acreage of tobacco housed this year, but the opinion is general that where the stand was an average one the yield per acre is one of the heaviest produced. The estimated average yield per acre is 740 pounds for the burley district and 805 pounds for the dark tobacco district.

The number of acres of clover cut for seed compared with the acreage of 1897 is 74 per cent. The average yield per acre is estimated at 1.9 bushels.

### A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at J. Jas. Wood's drug store. Regular size 50c. and \$1. Guaranteed or price refunded.

### AT HIGH NOON,

The Marriage of Miss Sue Worthington, of Fern Leaf, to Mr. William Remington was Solemnized.

At high noon to-day the marriage of Miss Sue Worthington, of Fern Leaf, to Mr. William Remington, of Paris, was quietly solemnized in the presence of a few near relatives and intimate friends of the happy couple. The home of Mr. and Mrs. Louie Smoot was the scene of the nuptials, and the Rev. W. W. Hall officiated.

The groom is certainly to be congratulated, as his bride is one of Kentucky's most charming daughters—a woman whose lovely character has endeared her to a wide circle of friends. She is a daughter of the late Madison Worthington, and a half-sister of Hon. E. L. Worthington, of this city. The fact that the bride was the groom's first sweetheart in his boyhood days and that he was the first young gentleman to call upon her, lends a tinge of romance to the happy affair.

The groom is a member of the firm of Craddock & Remington, publishers and editors of the Paris Kentuckian-Citizen, with which paper he has been connected for the past twenty-seven years. He is a handsome gentleman, whose genial disposition wins him warm friends wherever he goes.

He has been a member of the Paris City Council for the past five years, was Grand Master of the I. O. O. F. for Kentucky in 1893, and was Inspector of Public Buildings under President Cleveland's last administration.

Mr. and Mrs. Remington leave this afternoon at 3:25 o'clock on the F. F. V. on a trip to Chattanooga and the Lookout Mountains.

The BULLETIN extends its heartiest congratulations and good wishes.

### BUFFALO BILL.

Col. William F. Cody Will Be Here Tomorrow With His Wild West Show and Rough Riders.

The great Buffalo Bill's Wild West Show and Congress of Rough Riders will visit Maysville to-morrow and with anything like favorable weather the show will be greeted by an immense throng of people, as the residents of all the surrounding country for miles and miles are coming, judging from reports that reach us.

Col. John M. Burke, "Arizona John," who has been closely associated with Buffalo Bill for years, was in Maysville Tuesday, and authorized the BULLETIN to state that Colonel Cody will positively be with his show here. Colonel Cody was reported sick out West a few weeks ago, but it was only a slight indisposition and he was away from his show only a day or two. He will be in Maysville to-morrow. His show will close the season at Charleston, W. Va., Saturday.

Colonel Cody's last visit to Maysville was on October 16th, 1882, when he appeared in a performance at Washington Opera House.

Colonel Burke stated yesterday that the present season has been one of the most successful in the public career of the famous Indian fighter and scout.

### The New Planet.

More than usual interest is attached to the latest of our celestial discoveries, the little planet noted by Herr Witt at the Urania Observatory, in Berlin. Of all the minor planets yet discovered, and their number is between 400 and 500, this is the only one which appears to come anywhere near the earth.

Supposing the initial calculations are correct, there should be a point in its orbit, reached once in every 30 years or so, when it approaches within 14,000,000 miles—nearer than Mars, nearer, in fact, than every known celestial body but the moon. The circumstance is of real importance, as, if its exact distance is determined, the exact distances of the sun and the larger planets can without much difficulty be ascertained.

The decision of the U. S. Supreme Court on the bank tax cases taken up from this State is expected in January.

She will linger for a few weeks with relatives and friends and then proceed to her future home at Lexington. The church and the community, among whom she has lived so long, part with this estimable woman with many regrets. Their best wishes follow her.  
Tired, worn and weary with the cares and afflictions of a long life, Aunt Malinda Fegan passed into rest on the morning of Thursday, October 6th, 1898, in the ninety-first year of her age. All of her long life was spent in this vicinity. Her earlier years were spent with the family of Wm. Currens who ran the old taw dry north of town, and after his two daughters married Rev. James Savage and R. P. Dimmitt she made her home with them. Though the writer is being classed with the old men of the county and the sun of his existence has passed the zenith and goes rapidly to its setting yet when Aunt Malinda was a young lady she rocked the

cradle when we were a prattling babe, and sang the lullabies that soothed us to sleep. She took great delight in telling of a romantic ride to Ohio with one Jacob Dimmitt and his intended wife on a runaway trip in search of some one to tie the nuptial knot. She afterwards married James Fegan, with whom she lived a long and useful life, he preceding her to the grave fifteen years since in his eightieth year. She was a true, faithful Christian woman, devoted to her family and her household duties. We have often thought as we have seen the sun go down apparently beneath the waters of Lake Michigan how like the close of a long and well spent life. Again, not long since we wandered around the city of Mackinac all day, the hotels were closed, the gay crowds that thronged the streets, but a few weeks since, like the swallows, had flown to their Southern homes, a cold chilling rain was falling all day and late into the dismal night we waited with no music but that of the sad sea waves as they broke upon the shore. At three o'clock on Sabbath morning the steamer "City of Alpena" threw her great search-light over the place, and how changed was the scene. A light brighter than the midday sun shone round about us, a beautiful yet solemn, yet weird and impressive scene, one not easily forgotten. May we not imagine this to be typical of the experience of the way-worn pilgrim, who like the subject of this sketch, through many long and weary years has traveled life's journey and at its close suddenly exchanges the darkness and gloom of earth for the brightness and glory of heaven?

#### PITHY POINTS.

Money always cuts more or less of a figure at elections, but the man who doesn't think it is going to beat all records at the next Presidential election is reckoning without his host.  
It couldn't have been that the Secretary of the Treasury ordered Major Hutchins to make that purchase of cotton to bury the silver question out of sight for all time, particularly since the news from Georgia was received.  
The only way the money question is like a ghost is that it, like Baqueno's, will not down; so that it's not a fair presumption that Major Hutchins' purchase of cotton was at the instance of Mr. Lyman Gage in order to give the measure decent sepulture.  
It doesn't appear consistent that bankers should have such aversion to the prominence of the money question in politics, as money is their stock in trade, but these gentlemen may be fearful that the people will get to have a better knowledge on a question with which they are supposed to be more nearly concerned than the banking fraternity even.  
Said the Sergeant to the Don, After scrapping at San Juan, "You're a soldier and a brother, Let us shake with one another, Here's my hand—take a gnaw."  
Said the Jackie to the Dago, Whom he kicked at Santiago, "We plunked you and we snunk you, Now, we'll feed and clothe and bunk you, Here's my baccy—take a chew."

Tendered the Presidential Party by the Myriads at Omaha.  
Omaha, Oct. 12.—President McKinley and the other members of the presidential party from Washington were greeted on their arrival in Omaha by the largest crowd that has ever lined the streets of the city.

The presidential reception committee, composed of prominent Omaha citizens and their wives, was also at the depot. As soon as all were seated in carriages the procession started for the city hall. Along the whole line the crowds on each side of the street and in every window kept up a continuous ovation. The streets were also strung with lines of incandescent lights over each causeway and arches of colored incandescent lights at every street crossing, making the whole line of march as light as day.  
At the city hall the party alighted and the visitors were assigned to seats on a temporary platform from which they reviewed a magnificent parade of 40 floats.
